MILITARY AND INSURGENT ACTIVITY  
SVAY RIENG PROVINCE, CAMBODIA

SUMMARY

This report is an analysis of the military and insurgent activity in Svay Rieng Province, Cambodia, derived from photography obtained between [redacted] The report is divided into two parts.

Part I contains the location and description of 23 military installations which include strongpoints, barracks areas, storage areas, a border control point and a checkpoint. The majority of these installations are active strongpoints positioned close to the Cambodia/South Vietnam border. The four barracks areas are located in the vicinity of populated areas, and the two storage areas are situated at and in the general area of Svay Rieng City.

Part II describes the areas of insurgent activity identified in the province. The locations of many of these areas provide easy access by land and/or water into South Vietnam, making Svay Rieng a probable sanctuary and supply area for Viet Cong activity.

IMAGERY ANALYSIS SERVICE

Part II Insurgent Activity Svay Rieng Province, Cambodia

Interpretation of insurgent activity is extremely difficult. Visible indications of insurgency usually reflect variations from the normal economic and cultural patterns of an area; changes in the normal level of activity also make an area suspect. In Svay Rieng Province, Cambodia, the indicators of possible insurgent activity are bivouacs, trails, vehicle tracks, ground scarring, trenches, and automatic weapons positions - all activity not normally observed outside of known military installations within the area.

Twenty areas of possible or suspect insurgent activity have been noted in Svay Rieng Province, Cambodia. The majority of these areas are located in the northern portion of the province. Their location provides easy access by land and/or water into South Vietnam, making Svay Rieng Province a probable sanctuary and supply area for Viet Cong activity.

Insurgent activity areas analyzed in this report and annotated on Page 55 are:

1. Suspect Insurgent Bivouac Area (Page 56)
2. Suspect Insurgent Bivouac Area (Page 57)
3. Suspect Insurgent Bivouac Area (Page 58)
